

SIL1 1860 is manufactured with a very high silica content (96%) and has excellent break strength and resistance to abrasion. Typically used on the hot side of removable insulation blankets as a stand-alone or in conjunction with SST knitted mesh. Very good thermal properties and will not melt until temperatures exceed 3000 F.

## PRODUCT DATA

Weight	18.0 oz sy (620 gsm) +/- 10%
Thickness	0.030 inches +/- 10%
Color	Carmel
Coating	Plain
Base Fabric / Weave	8 Harness Satin
Width / Length	60 inches x 50 Lin Yards
Tensile W x F	220 x 110 lbs / inch
Silica Content	96%
Flame Resistance	
Char Length	1" maximum
Afterglow	1 second maximum
Flame Out	1 second maximum
Temperature Rating	
Treatment	Not Applicable
Base Fabric	1800 F (537.8 C)
